OutFitter

OutFitter incorporates the **ULTIMATE** amount of screening with two 9' wide side windows, a 48" rear window and 70" doorway, giving you 78 square feet of screening for UNSURPASSED cross-ventilation which is just the ticket on those hot summer nights!!

OutFitter's comfortable **QUEEN SIZE** bed conveniently unfolds in moments and the twenty-five square foot front room sits alongside an 18 cubic foot concealed cargo bay...**YES, CONCEALED!!** With this camper folding on top of the cargo body, not one square inch of cargo is taken up by any bed or tenting...and accessing cargo has never been easier...on the road, just lift the top folded section, during set up, simply lift the concealed panel under the mattress.

OutFitter's unparalleled quality features include...

- RTM molded, single piece, fiberglass cargo body in your choice of Dark Green, Gloss Black or Polar White. RTM (Resin Transfer Molding) is used to insure Unsurpassed product quality.
- Tenting is available in Burgundy, Dove Grey, Forest Green or "RealTree" camouflage in durable 420 x 420 denier, UV stabilized and urethane backed for maximum water-shed. These materials are not Fire Proof. No open flame or high heat source is to be inside or around this tenting material, use safety precautions.
- Pan-Rolled floors, no seams touch the ground.
- Independent "Torflex" suspension
- Panoramic side windows, dual-zipped for multi-directional use, giving you the MOST versatile window design in the industry.
- 70" doorway and all windows include screens with dual-zipped storm panels. In addition to the screen door & storm door we include a fully functional, independent, front and rear canopy.
- Roof & Walls Aluminum Roof Bows & retractable poles individually support the Roof & walls while providing an outward pitch for outstanding watershed.
- OutFitter's tent bows are dipped, anodized aluminum and are internally mounted for quick and EASY setup while the rear telescopic Bed-to-Ground assists in leveling OutFitter on uneven terrain. OutFitter also features a zippered Velcro panel in the side wall providing quick access to a tongue-mounted ice cooler or can serve as a point of entry for power cords. Arched roof bows, YKK zippers, mildew resistant tenting with a long-wearing pan-rolled floor all work together to make OutFitter's design perfect for weathering even the harshest storms.
